

LEVEL 2

This joyful step on your Kindermusik journey is filled with music, movement and plenty of toddler style energy. As your child's partner, you will sing, move, play, and grow together. Toddlers may not sit for long but they will learn how to be part of the group with you as their guide and at their side - wherever they are in the room! This fast paced, exciting class will delight them with stories, instruments, props, and their favorite person - you.
