

## Studio Safety Protocols

For the comfort and safety of your precious family we are happy to provide...

- Socially distanced classes with a marked spot for each child and/or family if desired.
- Instrument and prop cleaning between classes along with instrument and prop rotation to ensure that anything you touch is clean and sanitized. We use Force of Nature which is on the EPA's list for disinfectants to use against covid.
- Tissues, wipes and hand-sanitizers for your use. Masks available, if needed.
- Vaccinated, masked educators.
- Carbon and ultra-hepa air purifiers in each classroom.
- A mask requirement for all adults in the building in accordance with CDC and AAP recommendations for schools at this time.
- A mask requirement for children in our Level 3, 4 and 5 classes in accordance with CDC and AAP recommendations for schools at this time. We know this is tricky for little ones. We all just do our best!
- Staggered class start times to ensure distancing and limited crowds.
- A closed lobby - no lingering or waiting in our lobby before, during or after classes. Grown-ups are asked to mask and socially distance as they drop a child off at class and when returning for Sharing Time. Adults leave the building during their child's drop-off class.
